Notification of Security Clearance

Name: Suresh Narra	Date of Birth: 25/05/1983
--------------------	---------------------------

Reference:

1. This notification is not to be used by a third party as evidence of your security clearance status. Anybody who requests such evidence from you should be asked to contact UKSV directly at the above email address or your Sponsor.

During the course of your application, issues were identified that raise concerns about your suitability to hold security clearance.

These relate to your Indian nationality.

To mitigate these concerns, an access restriction to caveated material has been added to your security clearance. Your Security Officer will contact you to discuss these restrictions, how your specific circumstances could potentially attract risk and what will be done to minimise this.

You should report immediately and consult your Security Officer if you encounter any circumstances which suggest you may be at risk from pressure, blackmail or coercion as a result of your activities, interests or allegiances.

As the holder of a national security vetting clearance, you are reminded of the need to report any change in circumstances that might have implications for your security clearance. This must be done by completing a Change in Personal Circumstance Questionnaire. Further guidance can be found here:

<https://www.gov.uk/government/publications/change-of-personal-circumstances>

2. **Review Date:** This security clearance is valid from 12/03/2025 until 12/03/2035
3. This notification refers to the employment and organisation for which it was raised. The clearance may be transferable subject to the requirements of the Cabinet Office Personnel Security Policy.
4. Please note that a security clearance may be withdrawn or otherwise have its status changed at any time before its expiry date.
5. For any queries about this, please contact: uksv-helpdesk@cabinetoffice.gov.uk

**Issued on behalf of the
Head of United Kingdom Security Vetting (UKSV).**
